Marji Gesick 100: City of Ishpeming Impact to Downtown

The race will finish on Main Street impacting the following crossings with:

- A. Division Street (this will be volunteer covered until 7:00PM again this year. After that road rules apply.
- B. Pearl Street will need to be barricaded where it crosses Main Street.
- C. Cleveland Ave. will need to be barricaded where it crosses Main Street.
- D. Bank Street will need to be barricaded where it meets Main Street.
- E. Main Street will need to be barricaded where it reaches Hematite Drive.

*** It would be recommended to barricade Pearl, Cleveland and Bank at 1st Street to avoid sending vehicles down a street only to run into a barricade. Our experience this past February with vehicles driving around barricades and road closures in the downtown area (for Polar Roll) was a little scary.

Finish Line

The finish line will be located on Main Street near Pearl Street. Racers will then have one block to slow down before rolling into the after-party, celebration, vendor zone.

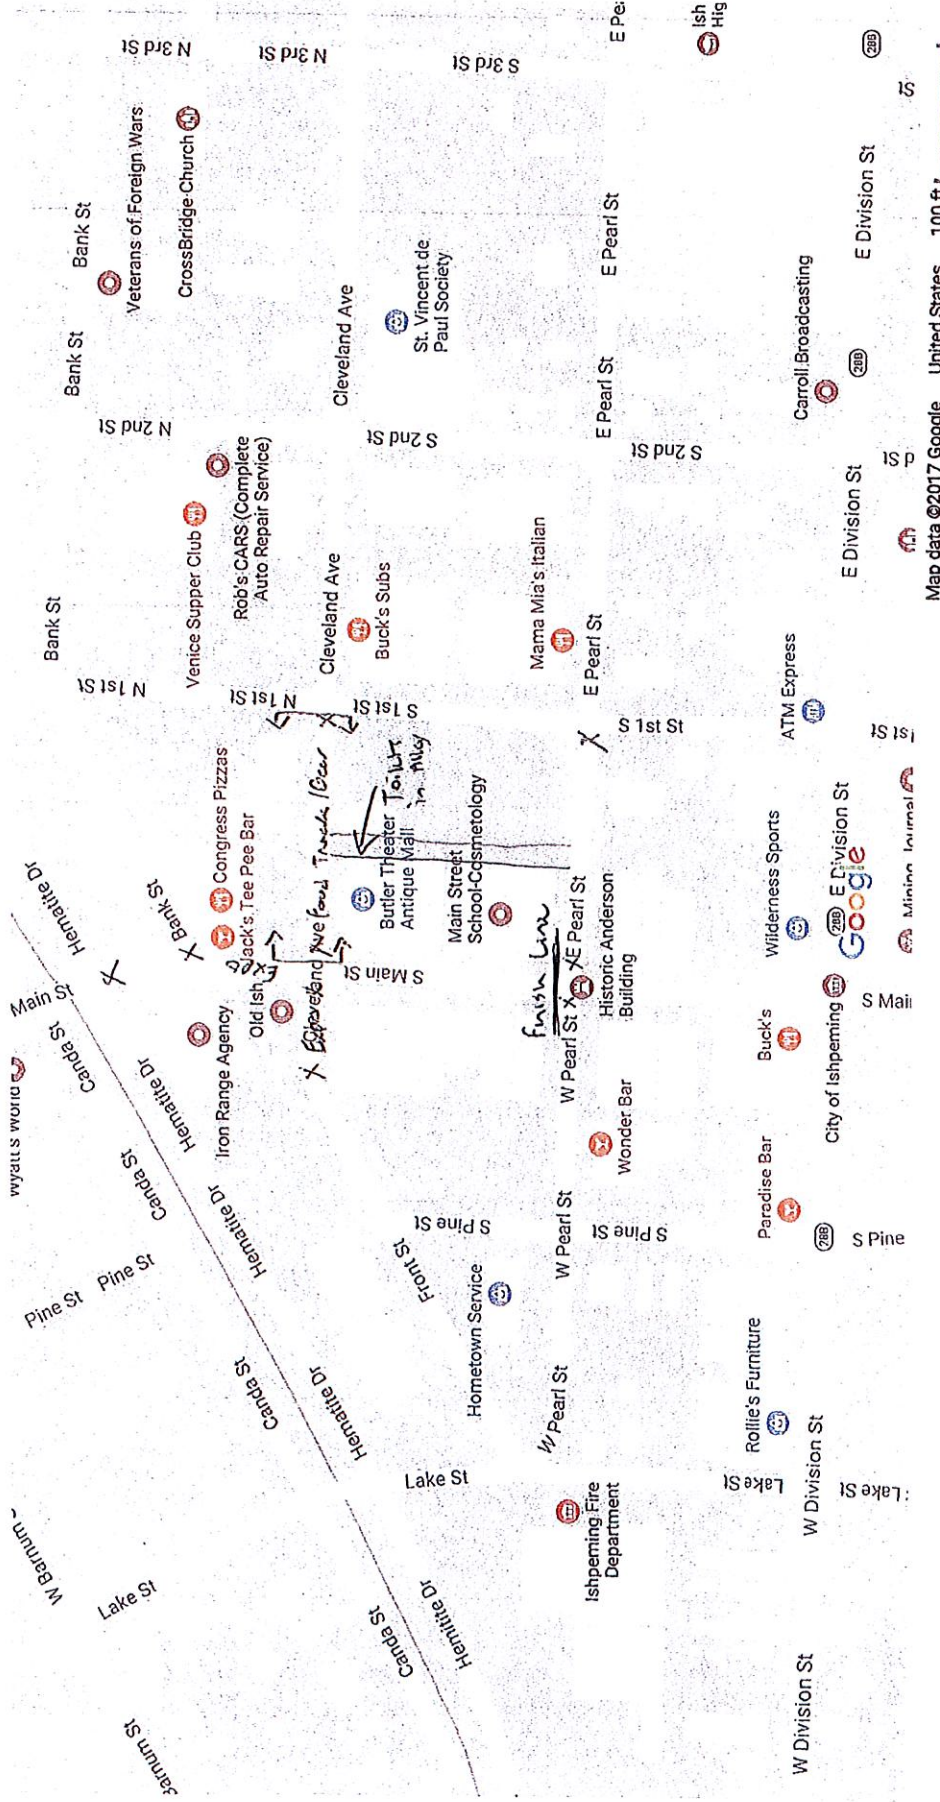

After-Party, Celebration and Vendor Zone

Racers, spectators, vendors, entertainment, podiums etc. will all congregate on Cleveland Ave (both sides flanking Main Street) and Main Street beyond Cleveland. Bulleted details:

- 1. We plan to get a liquor license.
- 2. We plan to have live music.
- 3. One or two food trucks TBD
- 4. Beer-Food-Music would go from 12-10pm. Tents would be set up on Cleveland.
- 5. NUE Podium will be placed at Old Ish
- 6. We plan to collaborate with Congress Pizza since we'll be camping outside his door all day and night.
- 7. We are wondering if we can get clearance to have the roads around the celebration zone closed until Monday morning.

We had racers finish last year until 2:30am Sunday.

I am available to visit a city council meeting to answer questions.

Map provided is the 2016 Course, Please disregard info shared in the left margin as it may not be accurate.

FINISH

AFTER MATH PARTY
Cognition Brewery
113 E Canda St, Ishpeming, MI 49849

The Marji Gesick 100 is a point-to-point Mountain Bike Adventure Race spanning Marquette County.

In 2017 our event will kick-off when the 100-mile Ultra Runners leave Harlow Lake at 8:00am, Friday, September 22nd. We had one runner attempt and finish (the only 100-mile runner ever to finish) in 34 hours. The rest of the events are Saturday, September 23rd.

100-mile bike

We anticipate 100-mile bikers to begin their journey to Ishpeming sometime between 6-7am. They should be out of the Harlow Lake area by 9am.

15-mile bike

We anticipate the 15-mile bikers to start around 9am. They're following the exact same route as the 100-mile course. The route will take them from Forestville, to the Harlow Lake area and eventually back to the pole barn in Forestville.

50-mile run, 50-mile bike

Both events start in Negaunee Township.

Marji Gesick Philosophy

We organize and promote this event as self-supported. It's uphill from start to finish. GPS is required! Race organizers sign the course but make no guarantees. The race does not operate aid-stations. Racers can accept hydration and nutrition assistance from support teams but are not allowed to cache anything in the woods along the trail. Doing so will result in a disqualification. Road rules apply at all road crossings.

To summarize the course

Racers start at the Forestville Trailhead. They will follow Noque trails into the Harlow Lake Area. Racers will follow an approved route through the Harlow Lake Area. They will eventually be brought back past the Forestville area and sent toward Tourist Park, otherwise known to locals as NTN North Trails. The race will make its way through the north trails and eventually connect to the IOHT. The IOHT will bring racers into the South Trails. The race will encompass a majority of the south trails before sending participants west via the snowmobile trail (#8). The snowmobile trail will be followed into Negaunee. The rest of the race will take place on

Negaunee and Ishpeming property. Last year the race did not end until 2:30am. Racers finish on Main Street in Ishpeming.

2017 Marji Gesick

September 22nd – 23rd

Incident and Emergency Plan

Date: September 22nd – 23rd

Venue: GPX files are available online www.marjigesick100.com Our 100-mile race stretches from the Harlow Lake area in North Marquette to Ishpeming.

Self-Supported: This race operates as a self-supported adventure. Road rules apply. The race does not operate aid stations. Volunteers do not cover road crossings. Racers are on their own and must fend for themselves. They can receive food/water from friends or family but no other assistance is permissible unless received from a fellow racer.

Friday 8:00AM:

100-Mile Ultra Run leaves Forestville Trailhead in north Marquette. We expect them to be on the course anywhere from 24-36 hours.

Saturday 6:30AM:

100-Mile Bike Racers leave the Forestville Trailhead in north Marquette. Last year our first racer finished around 4:45PM. Our final finishers crossed the finish line at 12:30AM Sunday morning.

Saturday 7:30AM:

50-Mile Ultra Runners leave the Iron Industry Museum. Last year both runners finished after about 12 hours. This year we have 11-12 runners. I expect them to be on the course for up to 12 hours again this year.

Saturday 9:00AM:

50-Mile Bike Racers leave Marquette Mountain.

Course Officials (responsibilities):

1. Provide a properly signed course.
2. Provide accurate GPX files for race day.
3. Advise racers of the self-supported ethos and potential risks and danger associated with the event.
4. Locate racer drop bags at the race transition point in Negaunee (Jackson Mine Park).
5. Provide accurate and up to date information in the weeks leading up to the race.
6. Respond to and answer racer questions leading up to the race – on race day racers are on their own.
7. Notify local law enforcement agencies, central dispatch and search and rescue of race operations the weekend of the event.

Allocation of Resources:

1. First Aid Kits, blankets/additional clothing, at key checkpoint in Negaunee (this is the only confirmed aid-station in the race).
2. Mobile phones with all race officials on racecourse.
3. Race Number plates: allocated to participants before the event.
4. Race sweep to confirm the course is clear of riders.

Search and Rescue:

1. All emergency response will be handled by Marquette County Search and Rescue.
2. In case of emergency all calls will be directed to 911 with central dispatch handling asset coordination.

Event and Traffic Management Signage

Marji Gesick course signage, traffic management signage and safety signage will be strategically placed throughout the course route. Signage will be up the day prior to the event and removed the day following the event. All racers will be advised "Road Rules" apply – traffic will not stop for racers, bikes must yield to traffic.

We cannot stress enough that signage can be torn down, blow down or be eaten by wild animals. We cannot guarantee the presence of signage on race day. All

participants are advised to bring working GPS units and an ability to manage their navigation needs. They are also advised road rules apply and that they must obey all traffic laws on course.

Competitor Briefing

Athletes will be briefed prior to the race start.

Race brief will include course details; identify known hazards, race rules and emergency procedures. In the event of a significant injury, teams are to use their phone to contact 911. In the event of no coverage they should relay information to the nearest course official or aid-station. Athletes will be reminded to use their course map in the event of an injury or mechanical failure.

Volunteer Briefing

Volunteers will be briefed prior to the race. Race brief will include course details; identify known course hazards, race rules and emergency procedures. In the event of a significant injury they will be advised to contact 911. Volunteers will also be advised to watch competitors as they pass through various check points for things such as potential frostbite or a racer who appears to be struggling with the elements.

Media

The sole person to communicate to the media will be the race director.

Emergency Access for Medical Professionals

Course design allows for access for emergency medical staff and emergency vehicles at several points throughout the route. Search and Rescue will determine what form of assistance/evacuation is required.

In the event of an accident or injury

1. All race participants will be notified at the race briefing that if an accident occurs, to contact 911 or a race course official who will then contact 911 and notify them of the accident, location and circumstances.
2. Non-threatening or minor injuries should be reported directly to the Race Director or other another course official.

Aid-Stations

One Aid-station will be established across the race route to provide fluids, food, heat and shelter if necessary for participants.

Self Supported Ethos

The Marji Gesick 50 and Marji Gesick 100 are operated as Self Supported. At the time of arrival for the race(s) competitors have been educated no one is out there to save them, they are on their own and they need to be fully prepared to coordinate

their personal support. Support from family and friends will be allowed but will not be facilitated in any way by the race committee. The MG100 is an adventure race and only those individuals fully aware of and comfortable with the potential risks of such an endurance event should attempt.

From: Jon Kangas, DPW Director

Regarding: Equipment Maintenance – Pressure Washer

Approximately two years ago, the pressure washer for our equipment maintenance failed for good. We had replaced the heat coil in it multiple times, but the machine is now beyond affordable repair.

I have budgeted a replacement over the last couple years, but have hesitated to order a new machine because I wasn't able to make a confident recommendation for a replacement. The most popular machines heat the water using a fuel oil/diesel burner which needs to have an exhaust vent to protect employees from nauseous fumes. Alternative options include electric heaters which can be very costly to operate over time. Finally, with the upgrade of our electrical system, the voltage has changed for certain circuits within the Public Works garage. We needed to be certain whatever machine we purchased could run on the new electric circuits and provide the least impact to employee safety. Additional research has since been completed and we are now comfortable making a recommendation. Exhaust-to-atmosphere options have been narrowed down to two electric powered, diesel heated options and we also received pricing for one all-electric option. The exhaust-to-atmosphere options are designed specifically for our applications and are used heavily in automotive dealerships, municipal service centers, building trades and agricultural applications. The following table provides the options available within our current requirements:

Distributor	Brand/Make/Model	Bid Price
Auto Value	Karcher HDS 3.5/30-4MEA (220V) Electric Power, Diesel Heated	\$6,455.00
Auto Value	Karcher HDS 3.5/23-4MEG (208V) Electric Power, Diesel Heated	\$6,612.00
Jasper Engineering	Sioux E-Series, Model E2.HS3000 (220V), All Electric	\$9,115.99

The recently adopted 2017 Budget Amendments includes \$6,500.00 (reduced from \$8,000.00) for this item. **I recommend purchasing the Karcher HDS 3.5/30-4MEA pressure washer from Auto Value of Ishpeming for the bid price of \$6,455.00 to be paid from budget item 401-441-976-015, Miscellaneous Equipment.**
