## S. 1<sup>st</sup> St – South of Division Traffic Maintenance Plan

### Ishpeming RD Water System Improvements Contracts I, II, & III

The following is an overview of the Traffic control activities that will be implemented for this phase of construction.

1. On Street parking and Thru Traffic will be closed during portions of construction activities in this area.
2. Street will be closed with signs and detours established.
3. Homeowners will be notified a week in advance of actual street they live on being closed for construction activities.
4. Homeowners are asked to use the alleys for parking and access to the greatest extent possible, access from both ends of alley will be maintained and left open to thru traffic.
5. Please **do not** park on the street overnight inside the construction work zone, we may be forced to tow your vehicle to avoid damage.
6. ALS will keep backfilling operations running concurrently with excavation activities to limit the amount of open disturbance to the best extent possible. This will allow some access to homeowner's driveways during construction activities. We ask that you use the alleys as much as possible as these activities are ongoing.
7. Pedestrian access will be maintained throughout construction activities, but please be careful when walking through construction areas.
8. ALS will provide all necessary special needs accessibility to homeowners as needed, if you need assistance please contact the City of Ishpeming to have them forward you to the proper people to handle your requests.
9. Garbage will be picked up from the curb by ALS and transported to a designated pick up location as construction activities take place in the area. Please just put your garbage out as you normally would, we will take it from there.
10. Any other questions or concerns please contact the City of Ishpeming or A. Lindberg and Sons Inc.
